

## ANNOUNCEMENT

---

### LTL UTILITY SUPPLY IS THE PROUD MASTER UTILITY CHANNEL PARTNER FOR COLUMBUS MCKINNON UTILITY PRODUCTS ACROSS CANADA

#### STOCK, SUPPLY & SERVICE

#### LTL Factory-Authorized Warranty Centres • Repair & Service Hoists, Chain Jacks & Rigging Equipment

At LTL UTILITY SUPPLY (Division of Lineman's Testing Laboratories of Canada) ("LTL"), we are always on the lookout for the latest industry-leading tools and equipment — that's why we are pleased to announce that effective immediately, we are the Master Utility Channel Partner for Columbus McKinnon utility products.

LTL will stock, supply and service a variety of hoists, chain jacks and rigging equipment from the Columbus McKinnon line, including Coffing Hoists and Little Mule. At LTL, we service and support this line, as well as other manufacturers, in our in-house testing, inspection, calibration and factory-authorized warranty centres to ensure the integrity of your equipment as well as to ensure you remain compliant.

Per the Occupational Health and Safety Act (OHSA), lifting device inspection is necessary to ensure employers are maintaining equipment, examining devices regularly and ensuring the equipment is performing optimally and in accordance with regulations. Our factory-trained in-house technicians properly inspect and repair your equipment so you can rest assured that your tools are meeting regular maintenance requirements.

We look forward to supporting all your needs as we welcome Columbus McKinnon on board! For more information on the line or to learn more, contact an LTL Product Specialist at [main@ltl.ca](mailto:main@ltl.ca) or 800-299-9769.

#### About Columbus McKinnon

Columbus McKinnon Corporation has a rich tradition, spanning 140 years, of providing quality material handling products and services to meet the needs of users in a variety of industries around the globe. Professional linemen, riggers, maintenance workers, plant engineers and safety specialists rely on the CMCO family of chain and attachments to lift, pull and secure loads in the utility and construction industries.
